DIGITAL LEARNING PLATFORM

Smart Digital School

Distance Learning at Your Fingertips

Colleges & High Schools

Universities

Grandes Écoles

PRESENTATION

A Complete Solution for Digital Education

Smart Digital School adapts to all levels of education

Colleges & High Schools

A solution tailored to secondary schools with simplified management of classes and subjects.

Universities

Scalable platform for large institutions with multi-campus and multi-faculty management.

Grandes Écoles

Advanced features for specialized training and professional courses.

Three User Profiles

Administration
Complete management of the establishment

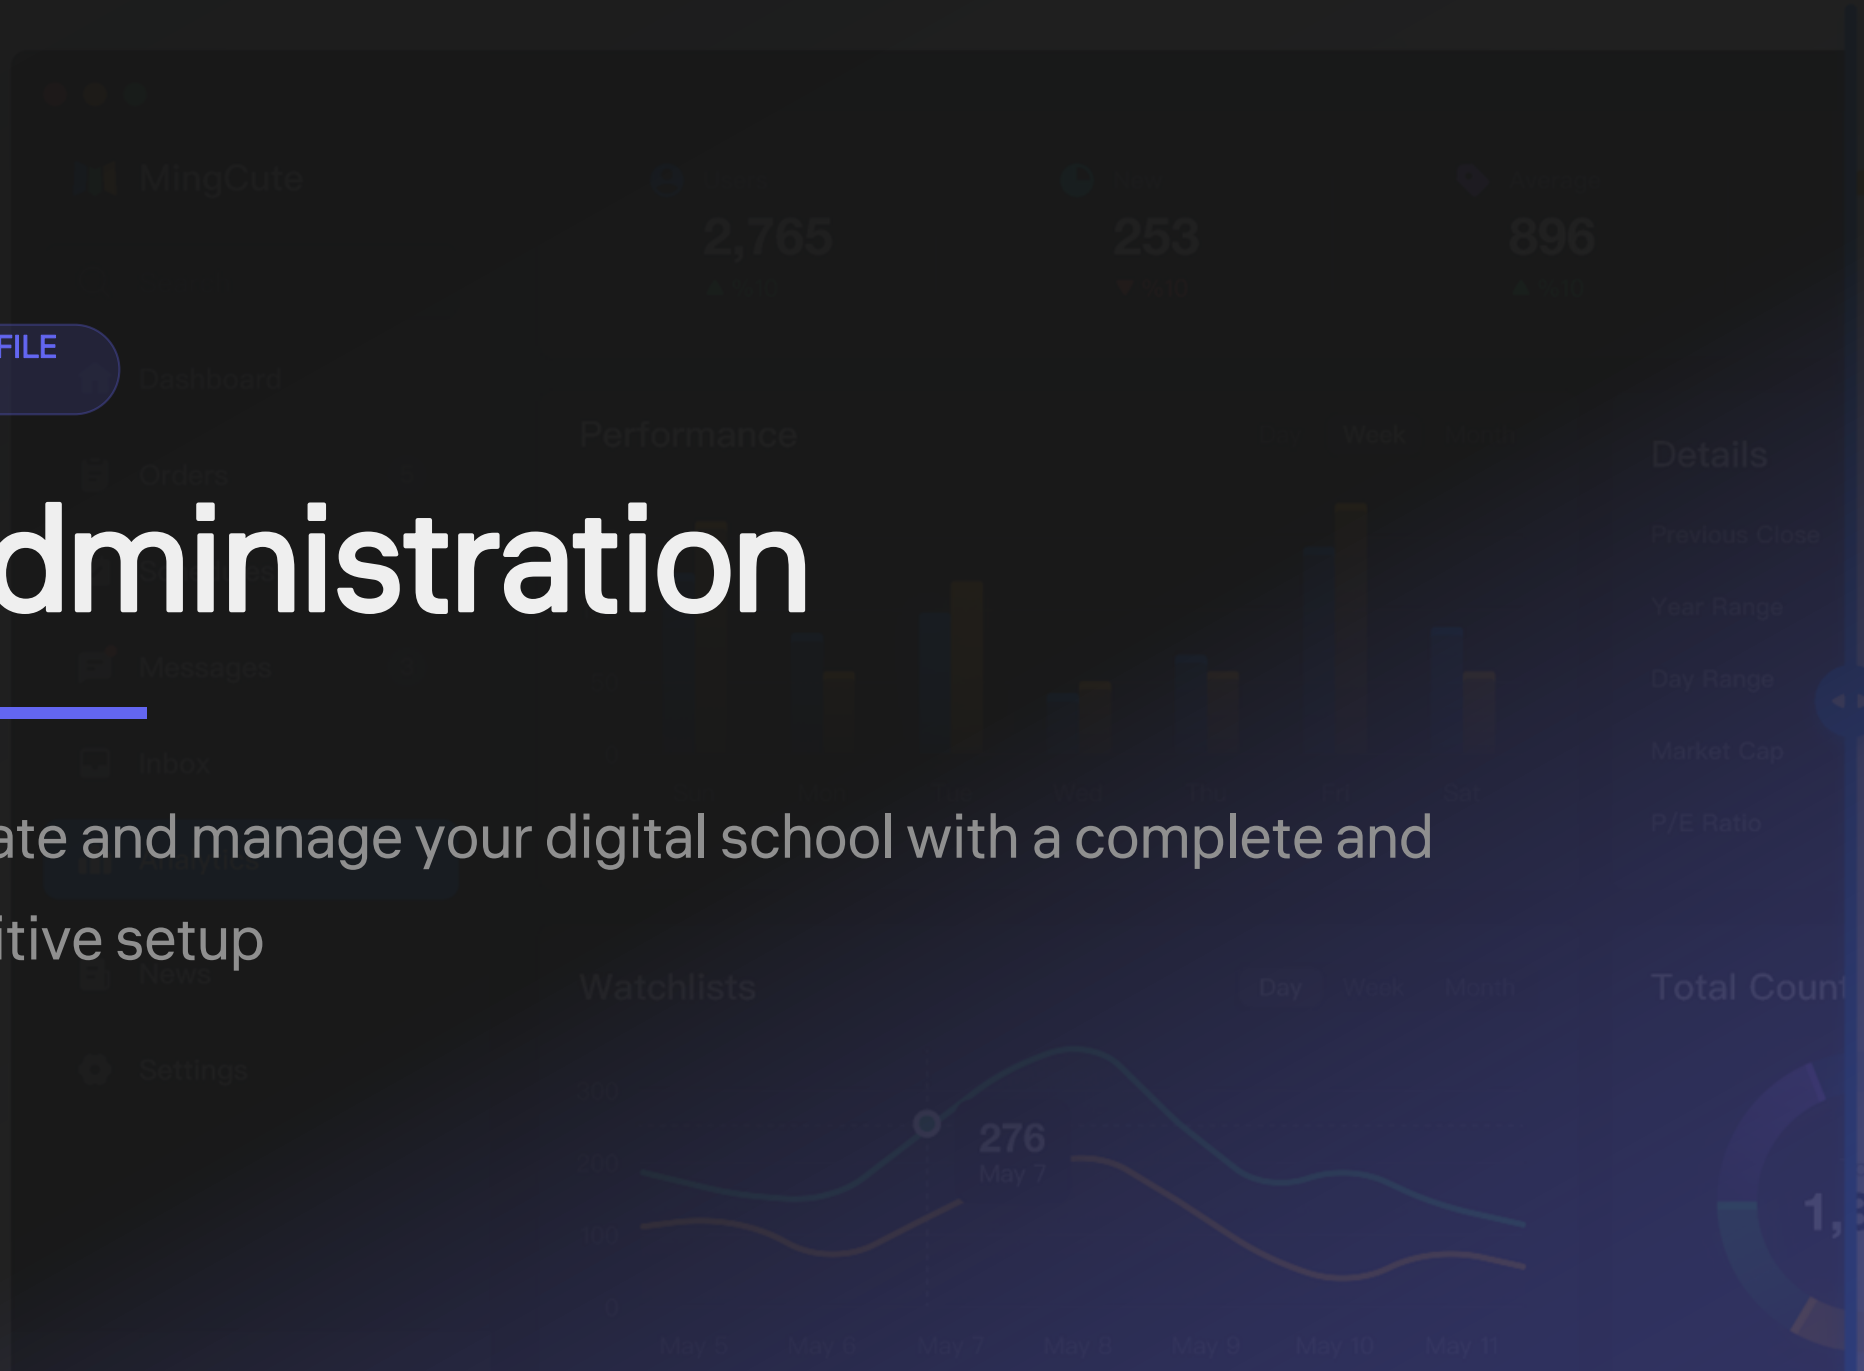

Professors
Creation and delivery of courses

Students
Personalized learning

PROFILE
01

Administration

Create and manage your digital school with a complete and intuitive setup

ADMINISTRATION

Complete Management of the Establishment

Centralized configuration of all educational elements

01 Create the Classes

Organize your school by creating classes for each grade level. Define the capacities, schedules, and specific characteristics of each group.

- School levels
- Capabilities
- Timetables

02 Create the Materials

Define all the subjects taught in your institution. Include the skills, teaching hours, and prerequisites for each discipline.

- Disciplines
- SKILLS
- Hourly volumes

03 Create the Professors

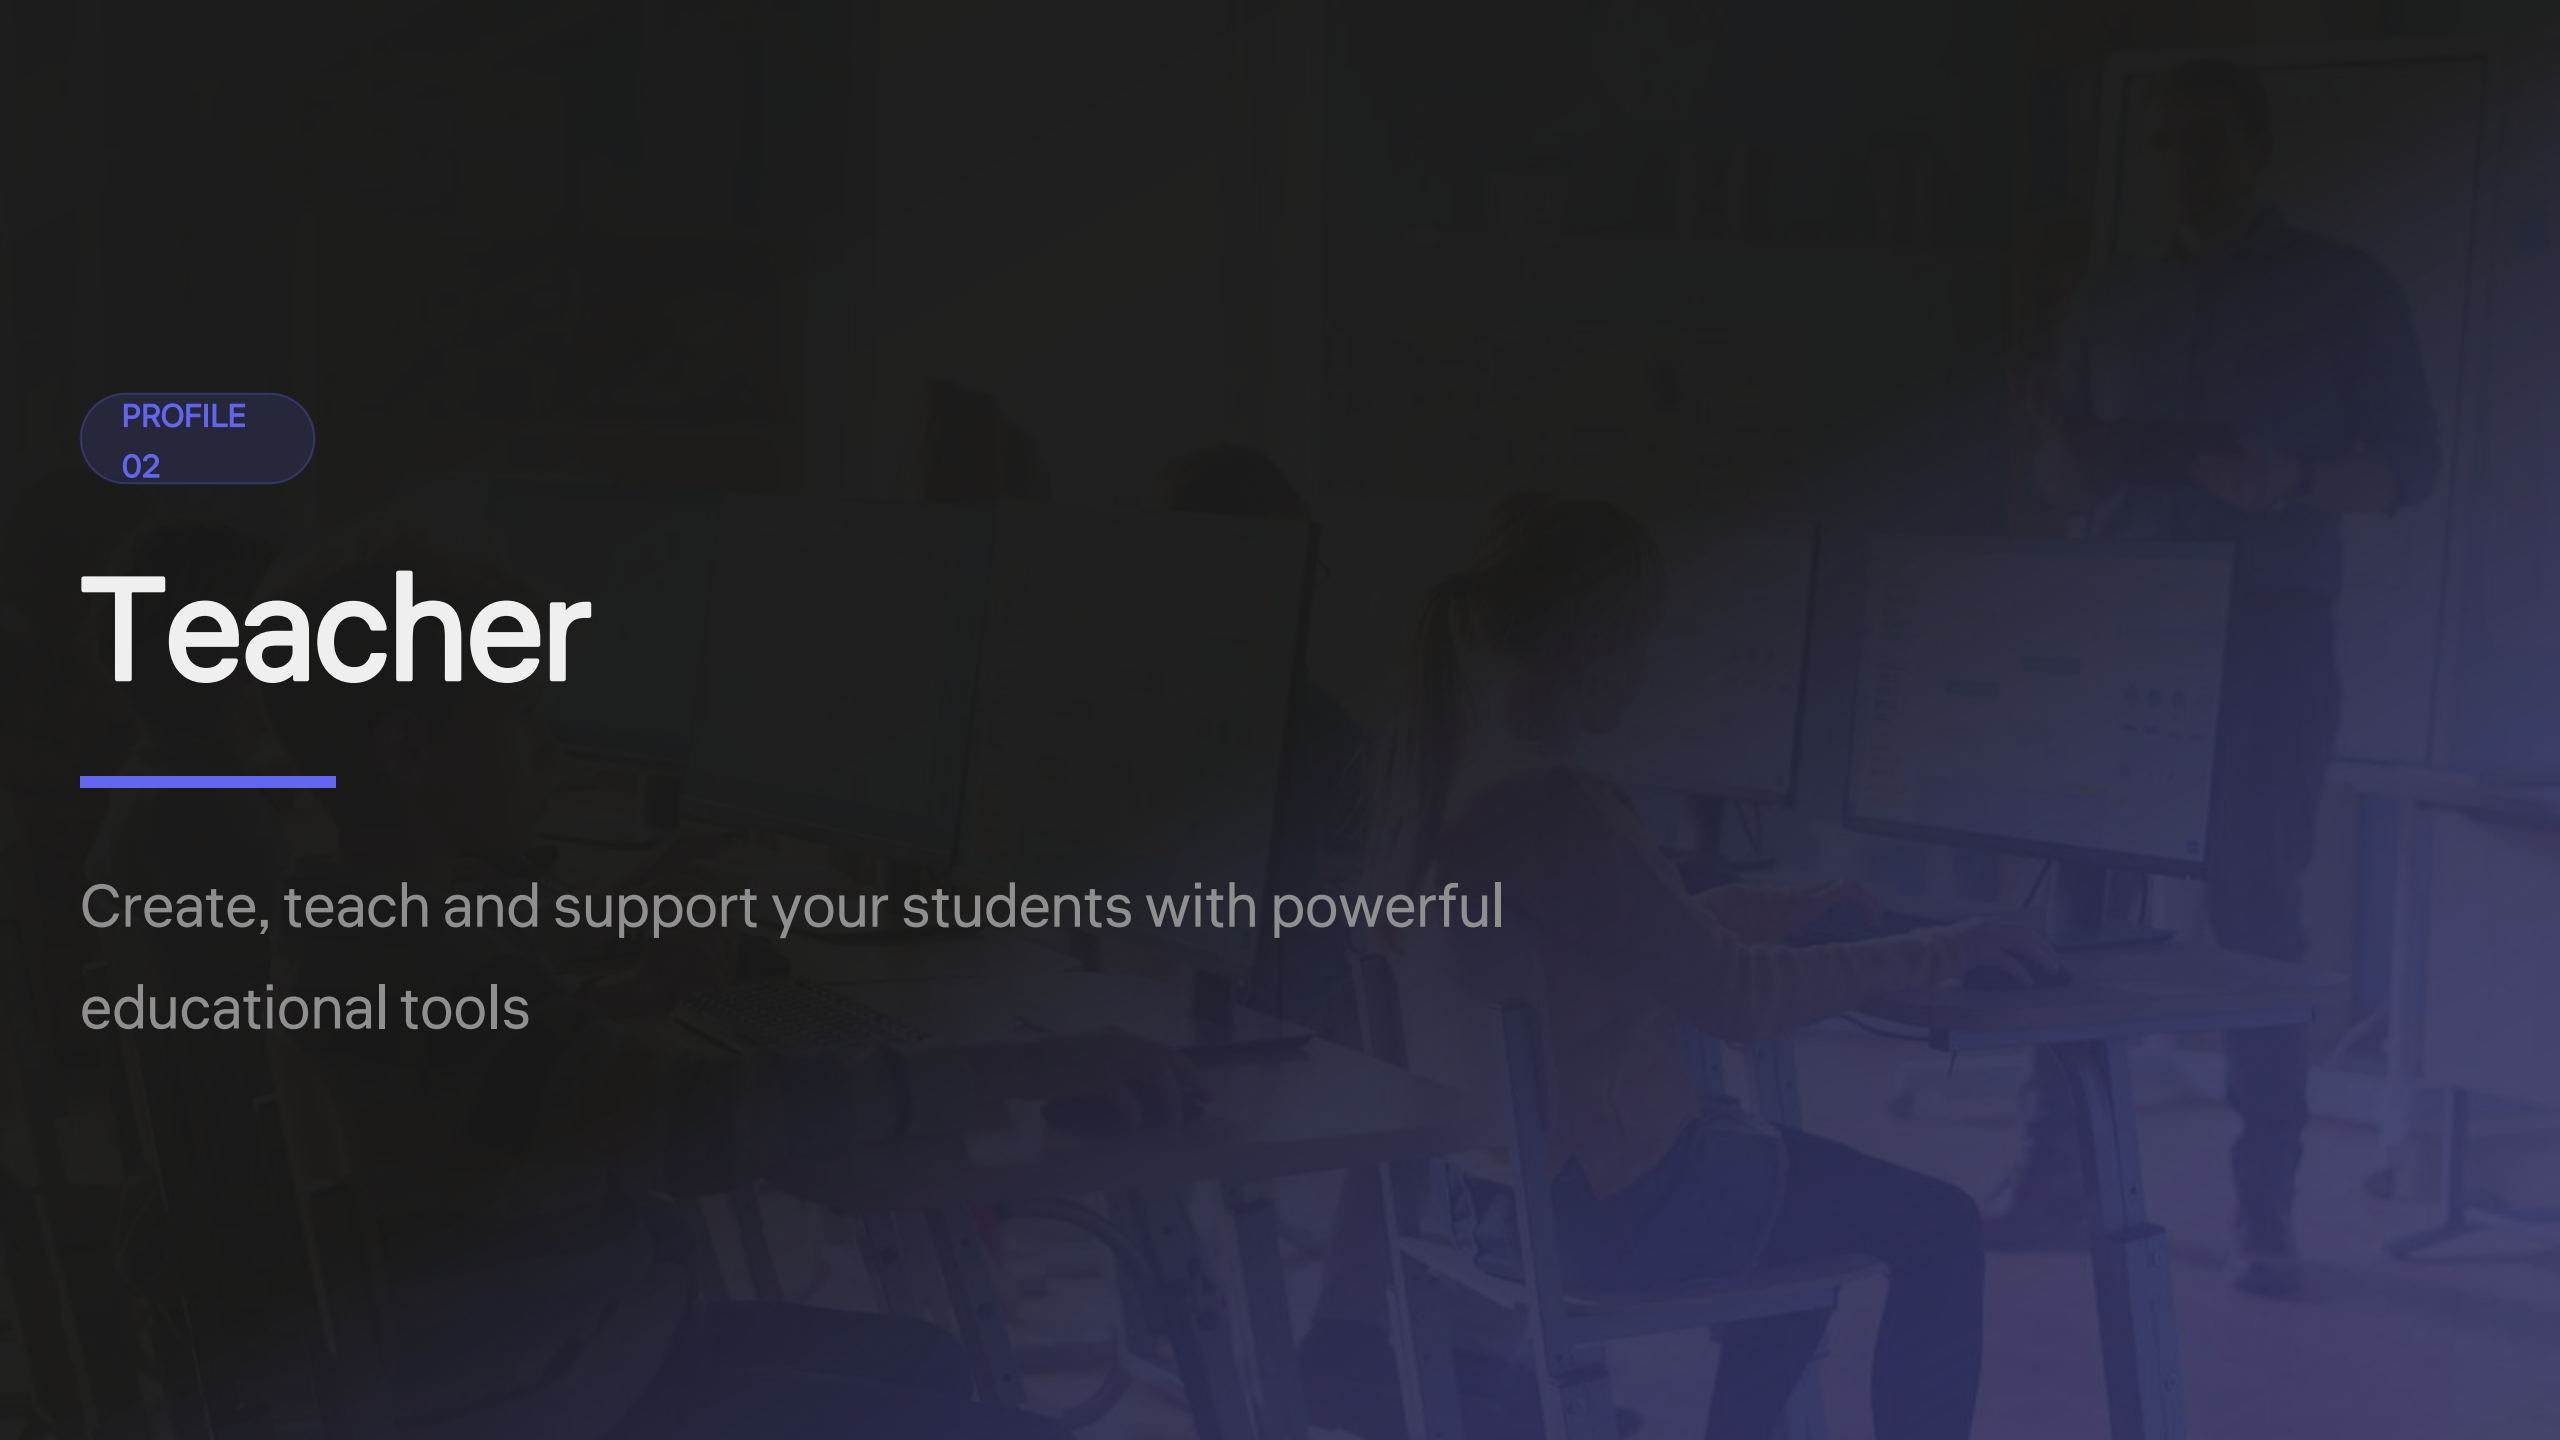

Register teachers and assign them the corresponding subjects and classes. Manage their access rights and teaching responsibilities.

- Assignments
- Access rights
- Specialties

04 Create the Students

Register students and assign them to the appropriate classes. Track their progress and engagement on the platform.

- Registration
- Course
- Follow up

PROFILE
02

Teacher

Create, teach and support your students with powerful educational tools

TEACHERS

Course Creation and Interaction

Comprehensive tools for distance learning

Content Creation

For each subject and class, create your educational content organized by chapter. Structure your course in a progressive and pedagogical way.

- Audiovisual content
- Downloadable documents
- Textual content
- Organization by chapter

Student Assistance

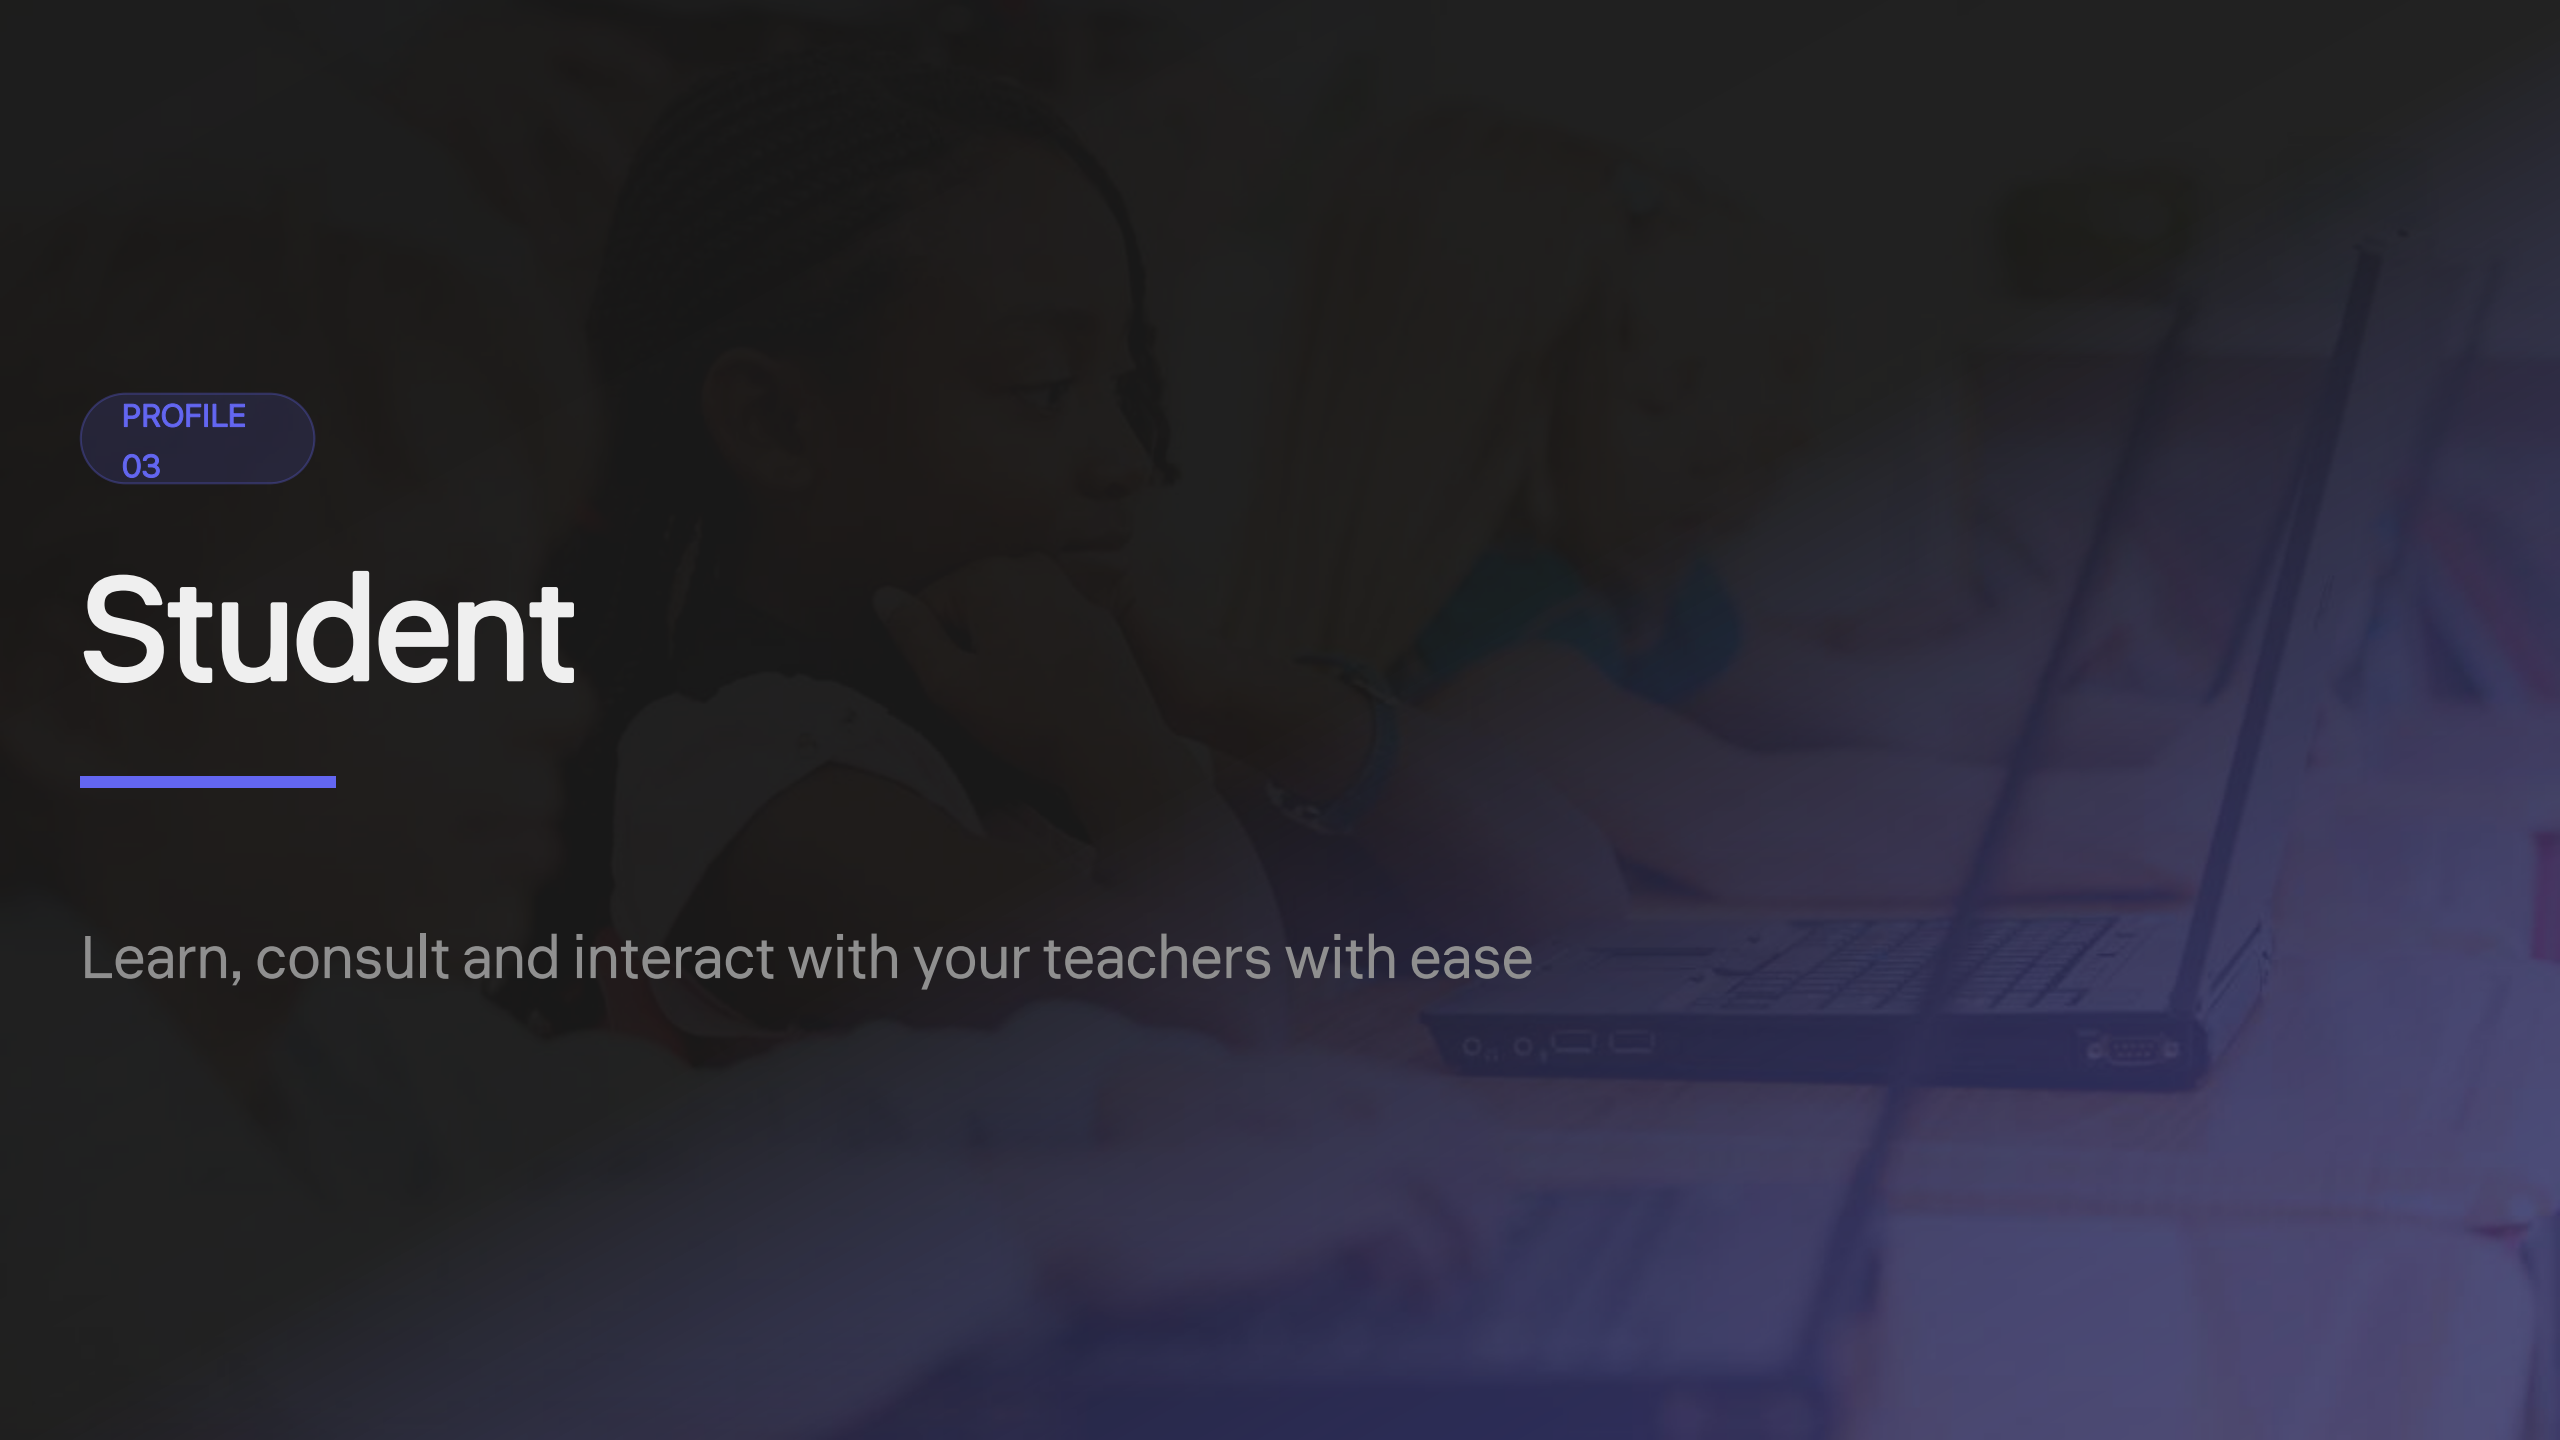

Review the support requests sent by your students and respond in a personalized manner. Offer solutions tailored to each need.

- Review of applications
- Scheduled video sessions
- Additional information
- Personalized feedback

Benefits for Teachers

Save time and improve student engagement
